## **Important Information – Please Read**

The information provided herein is for informational purposes only and does not modify any provision in Gulfstream's FERC Gas Tariff. If a conflict exists between this information and Gulfstream's FERC Gas Tariff, the provisions in Gulfstream's FERC Gas Tariff apply. Gulfstream makes no representation or warranty as to the completeness or accuracy of this information. Gulfstream shall not be liable for any informational errors, incompleteness or delays, or for any actions taken in reliance on this information.

To review the tariff language specific to any topic, go to <u>Gulfstream's Informational</u> <u>Postings page</u>, and select **Tariff** from the left hand navigation menu.

## Introduction

This document is broken up into different sections concerning invoices. The purpose of this module is to provide detailed examples to help you to understand Gulfstream's invoicing process.

## Invoicing

#### **How Invoicing Works**

Invoices are generated in a single cycle; **Demand** and **Commodity** are billed on the same invoice. Demand charges apply to customers with firm transportation contracts. Demand charges (also called Reservation Charges) are assessed regardless of whether or not any quantities are allocated to the contract during the month. Commodity charges are based on allocated quantities (actual use).

#### Invoice

Invoices are mailed on the 10<sup>th</sup> day of the month, and payment is due by the 20<sup>th</sup> of that month. Although invoices are generated daily, they remain in pending status until the final invoice is generated. The Invoice Packet Status (pending or final) is displayed on the Invoicing 1Line pages and also on <u>Gulfstream's Info Postings</u> page under the **Monthly Status** heading on the 1Line Timelines tab.

#### **Invoicing Overview**

Transportation charges are allocated and summarized daily, on a month-to-date basis. Charges are calculated at the component level on a daily basis.

Once invoice packets are final and available online, a broadcast message is sent to notify customers of availability. This message is only sent to those who have the **Billing and Invoice Charges View** role *and* have elected to receive the message by email.

To elect to receive email notification:

- 1. Login to 1Line and select Navigation > Customer Information > Business Associate Contacts
- 2. Select radio button for the user > Edit
- 3. Select the **Billing and Invoice Charges View** role, and the **Email Notification** box next to the role.
- 4. Select **Actions > Save**

Invoice packets are available in 1Line for up to three years.

#### Generating Invoices

Between the 10<sup>th</sup> and the 25<sup>th</sup>, customers must submit their invoice from the **Invoice Packets** page in order to view the **Invoice Packet Reports**. To submit the invoice:

- 1. Select Actions > Submit Packet Report
- 2. To view the reports, select **Reporting Tool Packet View**.

#### **Viewing Invoices**

Between the  $25^{th}$  and  $10^{th}$ , invoice packets are batch generated (automatically by 1Line) and are available to view.

#### Fields and Filters on the Invoice Page

- Accounting Period: Identifies the accounting month of the invoices, a required field
- **Billable Party:** The party that is billed for transportation services (can be agent)
- **Service Requester:** Identifies the party requesting the service
- **Invoice Packet ID:** Unique Identifier assigned by preparer (Gulfstream)
- **Contract/Admin Account ID:** Input the Contract number to see the invoice packet associated with that number
- **Invoice Cycle Type:** Single Cycle only
- **Transmission Method:** US Mail, On-line, Express Mail (at customer's expense), EDI/US Mail and EDI On-line
- Invoice Status
  - > Pending Draft version of statements
  - > Approved Statements are reviewed and ready to be sent to customer
  - Unapproved Signals an invoice that was sent to a customer and needs to be revised
  - Reprocessed Identifies an invoice that has a problem and is being corrected by the batch cycle

#### Parts of the Invoice

The Invoice consists of the following, if applicable:

- **Banner Page:** contains Invoice Packet ID, Billable Party, Name and Address.
- **Invoice Summary Statement:** Invoice balance due on each contract, Invoice Total Amount and information on how to pay.
- **Invoice Detail Statement:** For each contract, details the activities, the rate charged, and the amount due on each transaction as well as total amount due for the contract.
- **Balance Statements:** Park Statement and Loan Statement detail balances of the amount of gas parked or loaned on a specific day.
- **Imbalance Statements:** For Interconnects and Shippers, this statement reflects the imbalance created between receipts and deliveries.
- **Balance Resolution Activity Statements:** Details imbalances for Current and Previous month. This statement supports cash out.

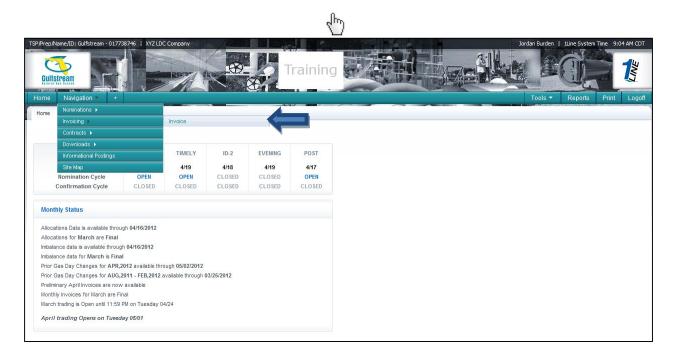

The following is an **Invoice View**. Balance Statements can be viewed through the **Reporting Tool View**.

#### Viewing Your Bill

Customers with the **View Invoice Role** may view invoices as they become available in 1Line.

1. To view an invoice select **Navigation > Invoicing >Invoice.** 

2. Select the accounting period of interest (it will automatically default to the earliest open accounting period) and the appropriate **Billable Party** and/or **Service Requester**.

TSP/Prep/Name/ID: Gulfstream - 017738746   XY2 LDC Company			Burden   1Line System Time 9:05 AM CDT

Invoice Detail Statement - Data File		04/18/2012 09:36:39	Success	JKIRWIN	

- Once the Status is **Success**, you will be able to open the .csv file and save to Excel
- Any hyperlink that has **Data File** in its name is available to view in a comma delimited (.csv) file.

To save the comma delimited file in Excel:

- 1. Open the .csv file by selecting **File > Save As** and changing the **Save as type** to **Microsoft Excel**.
  - Note that the **Create Invoice Data Files** action creates .csv files for each type of statement with all contracts within the invoice packet such as: Invoice Detail, Shipper Imbalance Statement, and Imbalance Resolution Statement.
  - The **Create Daily Invoice Data File** action creates .csv file for the Invoice Details at the Daily level.

## Reports

There are a variety of reports that can be used to view more details of invoices. Below is a list of some of the reports that can be generated for your use.

Functional Area	Report Number	Report Name	Report Description	Role Required to Access Report
BALANCES	-	•		
Balances	1924	Daily Imbalance by Zone	Customer's imbalance quantity, percent imbalance, and overall imbalance by Zone (volume and percent) for a day, or for a range of days	Billing and Invoice Charges View or Balances View
Balances	2414	Detail Park and Loan Balances	Detailed view of the PAL balances by contract.	Trade Balances
Balances	1916	Imbalance by Zone	Imbalance quantity, imbalance percentage, and overall imbalance for a customer by zone for both the trading period and the current month.	Balances View or Nominations View or Billable Party Commodity
Balances	1915	Imbalance Summary By OIA/Zone	Total System net imbalance information after the trading period has closed for a production month; provides the total volumes for <due to=""> and <due from=""> on an OIA/Zone basis.</due></due>	Balances View
Balances	1908	Shipper Imbalance Daily Statement	Current month daily activities, any prior month adjustments, the prior month's ending balance, and the current Accounting month's ending balance. Included as part of the Invoice Packet.	Billing and Invoice Charges View or Balances View
Balances	1929	Shipper Imbalance Information - Sortable by Receipt or Delivery	Net Receipt, Delivery and Imbalance quantities for a production month/accounting period by BA and contract. Sortable by Receipt or Delivery.	Billing and Invoice Charges View
Balances	1925	Trade Details	Trade information including Initiating and Confirming party data, contract numbers, quantity traded, fuel quantity, Zone, OIA and dates of the trades.	Trade Balances or Balances View
BILLING		•		
Billing	1331	Cashout Volume & Dollars by Billable Party	Volumes and dollars cashed out at each percentage tier, by Billable Party.	Billing and Invoice Charges View
Billing	1330	Cashout Volume and Dollars by Customer and Contract	Volumes and dollars cashed out at each percentage tier, by customer and contract.	Billing and Invoice Charges View
Billing	1319	Detail Billing Transactions By Accounting Period & Flow Date	Allows the customer to print 1 day's worth of their billing detail.	Billing and Invoice Charges View
INVOICE PAG	CKET - The fo	llowing reports are only a	vailable through the invoice packet.	
Balances	1909	Imbalance Resolution Activity Statement	Reports all the resolutions applied to OBA, Transportation, PVR, and Receiving Party Imbalance Types. This report shows resolutions involving in-kind make up ,trade, cash out and carryover.	Billing and Invoice Charges View
Balances	1903	Imbalance Statement- Interconnect	The Imbalance/Balance Statement is included in the invoice packet sent out to customers or agents of those customers. This statement will be sent out when the invoice packet is sent. It will reflect the current month's activity and any prior month adjustment.	Billing and Invoice Charges View
Balances	1907	Loan Statement	The loan balance type is used to track all gas loaned by the pipeline to a customer under a PAL agreement. Loaned gas is "colored" so it is known when gas was loaned under the service.	Billing and Invoice Charges View
Balances	1906	Park Statement	The park balance type is used to track all gas parked under a PAL agreement. Parked gas is "colored" so it is known when gas was parked under the service.	Billing and Invoice Charges View
Balances	1904	Shipper Imbalance Statement	The Imbalance/Balance Statement is included in the invoice packet sent out to customers or agents of those customers. This statement will be sent out when the invoice packet is sent. It will reflect the current month's activity and any prior month adjustment.	Billing and Invoice Charges View

Functional Area	Report Number	Report Name	Report Description	Role Required to Access Report
Balances	1905	Storage Statement	The Storage Statement is included in the invoice packet sent out to customers or agents of those customers. This statement will be sent out when the invoice packet is sent. This report shows all the injections and withdrawals at point or location for a particular accounting period	Billing and Invoice Charges View
Invoicing	1516	Invoice Detail Statement	Detailed report of invoice data grouped by service requester contract number.	Billing and Invoice Charges View
Invoicing	1503	Invoice Summary Statement	Summary report of invoice data. Amounts are summarized at contract level.	Billing and Invoice Charges View
INVOICING				
Invoicing	1518	Customer Measured Recap	Daily report that shows measured volumes; those volumes are shown as allocated for LDC customers.	Billing and Invoice Charges View
Invoicing	1501	Remittance Advice	Payment information form for customer to fill out and send back to Williams with posting instructions.	Billing and Invoice Charges View

## **Service Codes**

Code Value Description	Code Value Definition	Code Value
7(C) Storage		7S
7(C) Transportation		7C
Advance Deliveries		AD
Advance Receipts		AR
Firm Gathering	A service used to provide gathering on a firm basis.	FG
Firm Sales		FL
Firm Storage		FS
Firm Transportation		FT
Imbalance Settlement	An agreement under which a service requester would reconcile and settle an imbalance.	IB
Interruptible Gathering	A service used to provide gathering on an interruptible basis.	IG
Interruptible Sales		IL
Interruptible Storage		IS
Interruptible Transportation		IT
Limited Firm Transportation	Firm transportation provided on a limited basis	LF

Code Value Description	Code Value Definition	Code Value
Market Balancing Service	A type of service designed to eliminate imbalances as deliveries are allocated on actual usage.	MB
No-Notice Service Small Customers	A delivery service that can be used to provide traditionally small service requesters a supply of gas without prior notice.	SN
No Notice Transportation		NN
Operational Balancing	An agreement between the service provider and a service requester or between two interconnecting service providers used to establish rules for treatment of differences between actual and scheduled quantities.	OB
Other	Other Services - This code will be used only when a more specific code value does not apply.	ОТ
Parking and Loaning	A service that provides a service requester flexibility in balancing their receipt and/or deliveries.	РК
Preferred Storage	A type of premium storage service	PS
Plant Thermal Reduction	A service used to accommodate transactions related to liquids extraction, purification, dehydration and/or other types of gas processing.	PT
Pooling		PL
Small Customer Firm Transportation		SF
Transition Costs	A principal/interest type of service charge.	тс

### Accounting Adjustment Method

Code Value Description	Code Value Definition	Code Value
Net	Difference between the previously invoiced and the revised line item	NET
Restatement	Presents the revised invoice line item	RES
Reversal	Negates the previously invoiced line item	REV
